Cameco in northern saskatchewan

## Temporary Suspension Underway at McArthur and Key Lake

**Jan. 9**

start of staggered  
temporary layoffs

**Feb. 5**

temporary  
layoffs complete

**Feb. - Nov.**

care and maintenance

### What's happening at the mine and mill now?

The focus of the operations for the next 10 months is on safe care and maintenance of the facilities and the equipment, ongoing water treatment and environmental monitoring. Essential staff is on site to ensure all critical activities are maintained and emergency response teams are available.

### C is for Cameco

The sign isn't out yet but the Cameco La Ronge team is back in its old office just up the street.

They've moved-in with our partners at:  
**Areva at 519 La Ronge Avenue.**

306.425.4144

Monday-Friday  
8:00AM – 4:30PM

*Colleen Durocher, Jo Ann Morin, Russel Mercredi, and Cheryl Hovdebo (not pictured) can now be found up the street from their old office.*

## Meet Margaret

Margaret Noey is ready to help community members learn more about the mining industry and find job opportunities with Cameco and AREVA.

Noey has a long work history with the industry that dates back to 1994. The roles she had held include flight clerk, security guard and safety technician.

Noey particularly enjoyed the safety positions. **"I always like helping people. Safety was another aspect of helping, but in greater detail. I would train new workers on site on Cameco's safety training programs and do daily checks to make sure safety systems were working properly."**

Noey is looking forward to helping people in a new capacity now, building resumes, providing information and being a link between the companies and the community.

Margaret Noey is the new community liaison for Cameco and AREVA in Fond du Lac.

The community liaison office is located in the Ya'Thi Néné Land and Resources Office.

## Cameco's Northern Tour

After weather delays Cameco's Northern Tour lands in Fond du Lac, Uranium City and Wollaston on **February 5 and 6.**

Saskatchewan Roughriders Dan Clark (67) and Spencer Moore (80) visit with the students and teacher (Billy Rowluck) at Ben McIntyre School in Uranium City. The students learned the value of having healthy relationships.
