

Northern Saskatchewan Scholarship

The Cameco Northern Saskatchewan Scholarship is a dedicated program, specifically for residents of Saskatchewan's north (RSNs) who are seeking funding for post-secondary education.

Cameco is committed to making a positive, long-term difference in local communities. One of the ways we do so is through our scholarship programs.

Energizing the future
through education

Some of the 2023 scholarship recipients, representing Île-à-la-Croix Buffalo Narrows, Black Lake, English River First Nation, La Ronge, Cumberland House, Wollaston Lake

Eligibility

Cameco Northern Saskatchewan Scholarships are open to residents of Saskatchewan's north (RSNs) attending:

- trade programs,
- technical programs, or
- university programs.

All programs will be considered, however, special consideration will be given to candidates pursuing education in the Preferred Programs listed below as well as employee dependents who are RSNs.

Fully completed applications are due by July 15 and must include:

- documentation verifying RSN status
- a letter detailing academic goals, career objectives and interests
- a recent colour photo (headshot only)
- transcripts of most recent academic records

Scholarship Amounts

- Minimum of 10* scholarships awarded annually
- Up to \$5,000 per scholarship or renewal each year
- Awards of \$2,500 and greater will be allotted in two equal payments (September and January)
Second payment is contingent upon successful completion of first semester and submission of transcripts to Cameco.
- Life-time maximum of \$20,000 per student, over four years

* the number of scholarships available is dependent on the value of scholarships and renewals awarded each year.

Renewals

Scholarship recipients, meeting the following criteria, are eligible to complete up to a four year program.

- successful academic promotion as determined by the school
- maintenance of full-time student status
- registered in full-time studies in the year the award is received
- successful summer employment performance, if they were employed as a Cameco summer student
- completion of an application form and all supporting documents during the renewal year

Renewal is not guaranteed and will be determined by the Award Committee during the annual adjudication. If renewed, the Award Committee may also decide to increase or decrease the award.

Application deadline: July 15

Preferred Programs (other programs will also be considered)

University

(degree)

Biochemistry
 Chemical Engineering
 Chemistry
 Civil Engineering
 Engineering Physics
 Environmental Engineering
 Environmental Earth Sciences
 Environmental Science
 Geology
 Geological Engineering
 Geophysical Engineering
 Geophysics
 Industrial Systems Engineering
 Land Use and Environmental Studies
 Mechanical Engineering
 Metallurgical Engineering
 Mine Engineering
 Nursing
 Physics
 Toxicology

Technical

(certificate/diploma)

CAD/CAM Engineering Technician / Technology
 Chemical Technician / Technology
 Civil Engineering Technician / Technology
 Electrical Engineering Technician / Technology
 Engineering Design and Drafting Technology
 Environmental Engineering Technician / Technology
 Geological Technician / Technology
 Instrumentation Engineering Technician / Technology
 Mechanical Engineering Technician / Technology
 Metallurgical Engineering Technician / Technology
 Mineral Exploration Technician / Technology
 Mine Engineering Technician / Technology
 Occupational Health and Safety
 Power Engineering Technician / Technology
 Quality Management
 Radiation and Environmental Monitoring Technician
 Underground Mining Raise Boring
 Underground Mining Shaft Operation

Trades

(certificate or apprenticeship level training)

Electrician
 Heavy Duty Mechanic
 Industrial Mechanic
 Welding
